Biomedical Microwave Sensors for Point-of-Care Applications

Guest Editors:

Dr. Robin Augustine
The Microwaves in Medical Engineering Group (MMG), Solid State Electronics Division, Angstrom Laboratory, Department of Electrical Engineering, Uppsala University, Box 534, SE-751 21 Uppsala, Sweden

Robin.Augustine@angstrom.uu.se

Prof. Dr. Paul M. Meaney
The Microwave Imaging and Spectroscopy (MIS) group, Thayer School of Engineering at Dartmouth, 14 Engineering Drive Hanover, NH 03755, USA

paul.m.meaney@dartmouth.edu

Deadline for manuscript submissions:
28 February 2021

Message from the Guest Editors

Dear Colleagues,

Point of care sensors have huge potential in present and future clinical and home care scenarios. Microwave sensors are a very important technology that can be used for early screening and diagnosis of various diseases, which will help avoid delays in the administration of treatment. Due to their safe non-ionizing characteristics and tissue discernability, microwave sensors are a very good alternative to conventional X-Ray and electrical impedance-based sensing. This Special Issue will also focus on various clinical needs that microwave sensors could address and, thus, attract more research in the point of care area.

IMPACT FACTOR 3.031

an Open Access Journal by MDPI

Message from the Editorial Board

Sensors is a leading journal devoted to fast publication of the latest achievements of technological developments and scientific research in the huge area of physical, chemical and biochemical sensors, including remote sensing and sensor networks. Both experimental and theoretical papers are published, including all aspects of sensor design, technology, proof of concept and application. *Sensors* organizes Special Issues devoted to specific sensing areas and applications each year.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed by the Science Citation Index Expanded (Web of Science), MEDLINE (PubMed), **Ei Compendex**, **Inspec (IET)** and Scopus.

CiteScore (2018 Scopus data): **3.72**; ranked 9/123 in 'Physics and Astronomy: Instrumentation' and 102/661 in 'Electrical and Electronic Engineering'.
