

Virtual Gala
16 December 2020
Streaming LIVE from Verdi Theatre - Pisa, Italy

WELCOME

to the 2020 .eu Web Awards Virtual Gala

After yet another incredible year of European online excellence, EURid celebrates its annual .eu Web Awards gala with a special twist!

Join us for the very first .eu Web Awards virtual gala, streaming LIVE from Verdi Theatre in Pisa, Italy.

On behalf of everyone at EURid, we congratulate the finalists of the 2020 .eu Web Awards for their wonderful contribution to the .eu community.

In hoping you're as excited as we are to celebrate your online success, let's start the show!

EURid winning the 2019 CENTR Awards for Registry of the Year and Working Group Champion.

Who will get a knock on their front door?

MEET THE 2020 FINALISTS

Kiwitcms.eu

Kiwi TCMS is an open source project with a colourful and diverse history spanning back more than 10 years on a mission to transform the testing process within software QA teams. KiwiTCMS transformed an abandoned product into a leader in its field and continues doing so in an open and community friendly way. Based in Bulgaria, Kiwi TCMS reaches across New Zealand, Asia, Africa, the entirety of Europe, and the Americas.

INDUSTRIES

Orgalim represents Europe's technology industries and is committed to working with policymakers and stakeholders to strengthen industries' growth and global leadership, to maximize their contribution to Europe's economy and society, and to foster a new relationship of trust between businesses and citizens.

Pairidaiza.eu

Pairi Daiza is a zoological, architectural and botanical garden near Brussels, at the heart of Europe. Voted Best Zoo of Europe for three years running, Pairi Daiza houses 7000 animals, many of which are facing extinction in their natural environment. Pairi Daiza is also home to more than 90 conservation programs for threatened animal species.

MEET THE 2020 FINALISTS

[Datamarketservices.eu](https://datamarketservices.eu)

DMS is a team of investors, coaches, consultants, lawyers, researchers and communicators, selected from top partners and joining skills and knowledge for the next best startups in Europe. Coordinated by ZABALA Innovation Consulting, DMS Accelerator was born in 2019 under the European Union's Horizon 2020 research and innovation programme, and aims to overcome the barriers of data-centric SMEs and startups in Europe.

Managi.eu

The higher the quality and nutritional value of products produced in Greece, the greater degree of difficulty for the products to find their way and establish their place in International and domestic markets. ManaGi's mission is to bring together and give prominence to top quality Greek products whilst enabling each consumer to order it directly from the producer irrespective of end-to-end distance and borders or nations.

Openscan.eu

Based on Photogrammetry, the OpenScan 3D Scanner is compatible with a variety of cameras, thus enabling use with simple smartphones or DSLR. In order to create a 3D model, the device captures pictures from various views and using Freeware, creates a highly accurate 3D model with or without texture.

MEET THE 2020 FINALISTS

Clevercities.eu

CLEVER Cities is a €15m five-year project funded by the European Commission's Horizon 2020 Programme to foster sustainable and socially inclusive urban regeneration in cities across Europe, South-America and China. Built on an innovative community-driven approach, the project involves local governments, citizens, businesses, knowledge partners and district-level stakeholders in identifying and implementing urban interventions that tap into the unparalleled potential of nature to tackle development challenges.

Ecostructureproject.eu

Ecostructure is a research project involving scientists from five leading universities in Wales and Ireland. Ecostructure is identifying features of natural shores that are positively associated with biodiversity and ecosystem functioning and looking at ways these can be incorporated into artificial coastal structures such as seawalls, breakwaters, and renewable energy structures. The project aims to increase the uptake and raise awareness of coastal eco-engineering solutions to climate change adaptation.

Jonasproject.eu

Joint Framework for Ocean Noise in the Atlantic Seas (JONAS) is a research project that brings together leading scientific researchers from Ireland, the UK, France, Portugal, and Spain to address the transboundary issue of underwater noise pollution in the northeast Atlantic Ocean. JONAS is addressing the risks of these acoustic pressures on marine biodiversity by improving ocean noise monitoring and risk prediction.

MEET THE 2020 FINALISTS

Effichronic.eu

Assessing the potential of self-empowerment on vulnerable population with chronic conditions across Europe.

Aiming to demonstrate cost-effectiveness and benefits of the Chronic Disease Self-Management Programme (CDSMP) for citizens with vulnerable and chronic conditions, the European Union's Health Programme funds EFFICHRONIC as a highly innovative design that pairs self-empowerment with social and clinical determinants for reducing healthcare expenditure and increasing quality of life in the EU.

The EFFICHRONIC (GA 73812) project is funded by the European Union's Health Programme (2014 - 2020)

Europeanschoolradio.eu

The European School Radio (ESR) scientific society is a nonprofit civil organization that supports and fosters the ESR web-radio platform to the primary and secondary education community in Europe. The ESR society has strategic partnerships with public organizations. The European School Radio has thrived since its conception in 2010, and is the only large-scale student web-radio in Greece and one of the few in Europe.

Sintec-project.eu

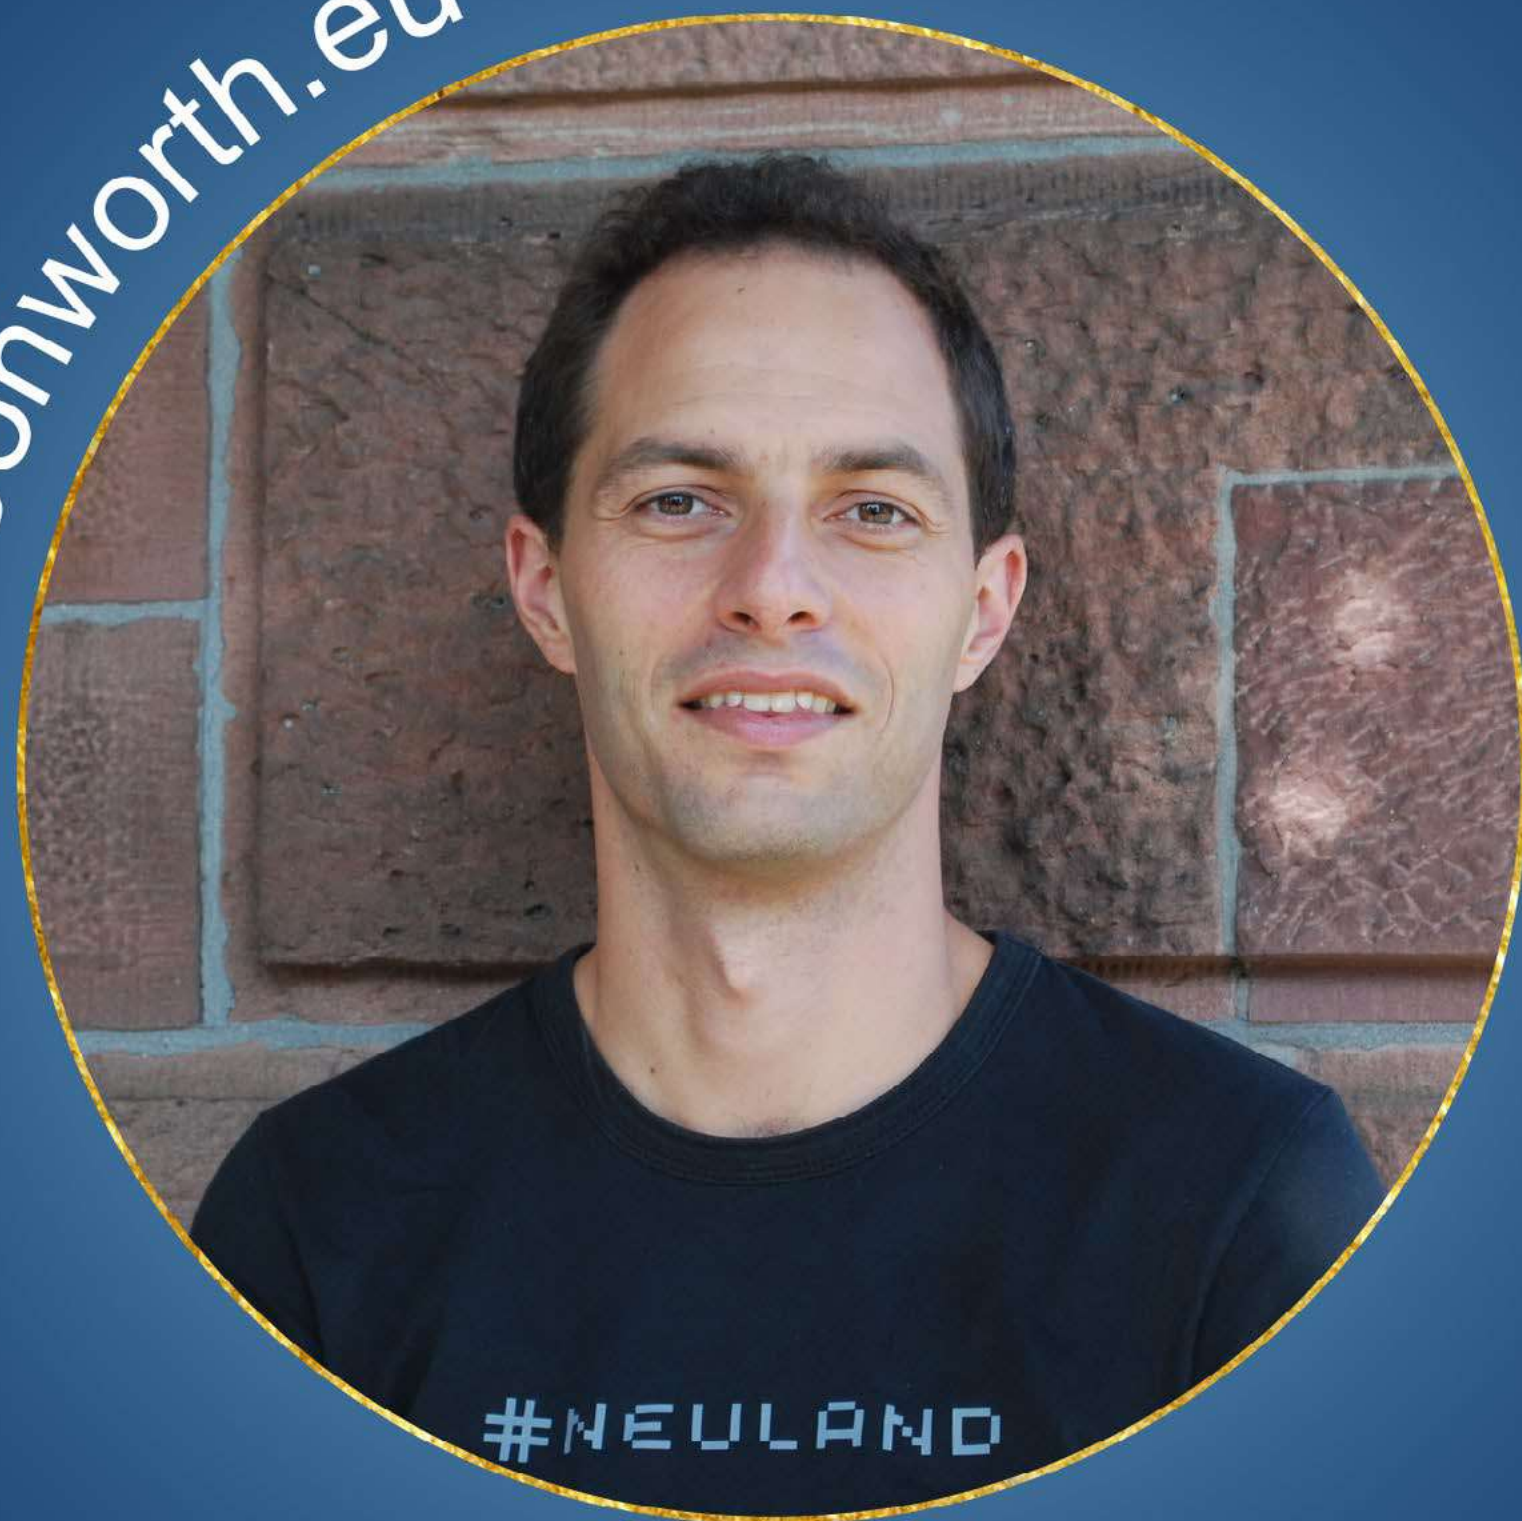

The SINTEC research project aims at providing production technology for soft, sticky, and stretchable sensor patches that can be used multiple times and at longer periods. Thanks to a coupled app, produced patches will measure important body functions, helping a recovering person to quicker rehabilitate or allowing an active elderly person to be warned in case of slow deterioration in health. Eight partner institutions are collaborating in this project, funded by the European Union's Horizon 2020 research and innovation program under GA 824984.

MEET THE 2020 FINALISTS

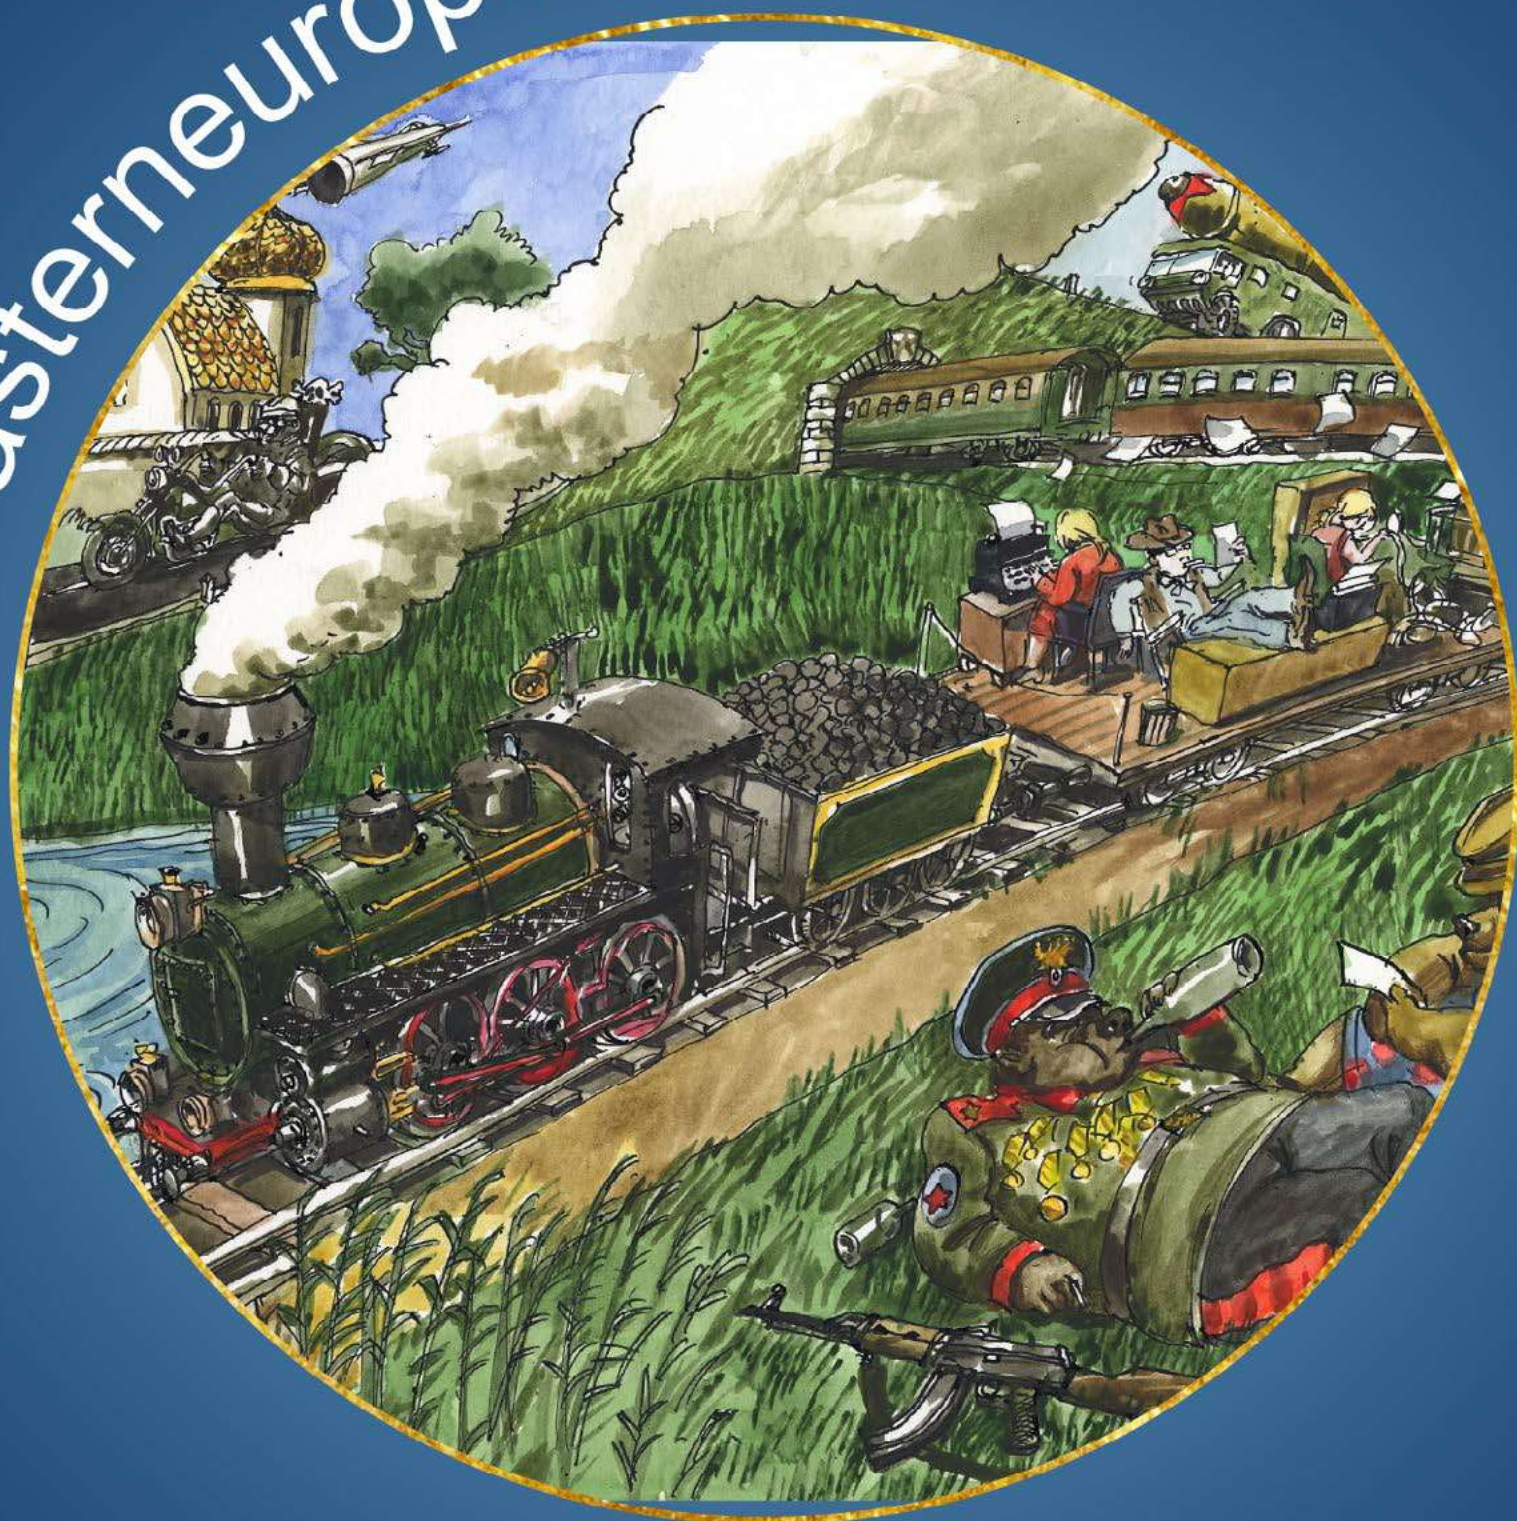

JonWorth.eu

Jon Worth's Euroblog is one European's path through life and politics. The personal blog has more than 2100 posts and 800.000 words written over 15 years. An unpaid endeavour, the site has been using a .eu domain since the first day they were publicly available. Above all the blog has documented the tribulations of the UK/EU relationship, culminating with Brexit, and an analysis of its aftermath. The blog has accompanied Jon on rail trips across Europe and beyond, and has been a platform for multiple campaigns.

Neweasterneurope.eu

New Eastern Europe is a non-profit, bi-monthly news magazine and online web portal about Central and Eastern European affairs, published by the Jan Nowak-Jeziorański College of Eastern Europe. New Eastern Europe's mission is to shape the debate, enhance understanding, and further the dialogue surrounding issues states once a part of the Soviet Union or under its influence face.

VisitItaly.eu

VisitItaly enhances and promotes Italian territories, characteristic products, culture, traditions and local excellence by giving travellers the opportunity to gain authentic experiences in the very best spots in Italy. VisitItaly provides Italian excellence a global stage and guides travellers towards the best activities in Italy.
